

Protection Column

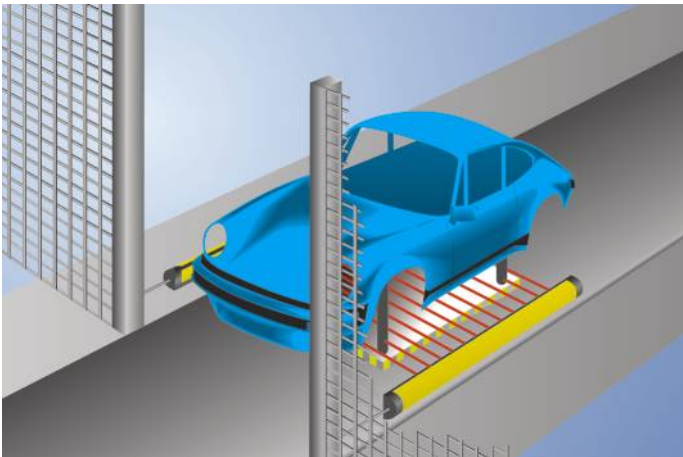

with Protective Screen

Z2SS003

- Effective protection against mechanical damage
- Flexible installation: install on the ground or walls
- Integrated slot for muting sets
- Simple alignment via innovative mounting feature

The protection column with protective screen provides safety light curtains and multi-light arrays with reliable protection against bumps, collisions and machines. A freestanding setup is possible using the floor mounting of type ZMBSZ0001. The type ZMBSZ0002 wall mounting is suitable for horizontal setups. Axial or vertical alignment is possible with just a few turns of your hand thanks to the intelligent mounting technology and integrated level. One slot on the protection column simplifies installation and alignment of the various muting sets.

Mechanical Data	
Housing Material	Aluminum, powder-coated
Housing Material	Plastic, PA
Housing Material	Plastic, PE
