

### Release notes for Yaskawa Interface Seam Tracking 2.0.1

#### Version 2.0.1

#### Previous version 1.0.0

#### Release date 25.08.2020

#### Description Yaskawa Interface Seam Tracking

The software add-on permits communication between a uniVision application DNNF012 and a robot for seam tracking applications. In this way, a 2D/3D Profile Sensor can be used with a uniVision application for seam detection and tracking in realtime with a robot.

This interface supports:

Manufacture: Yaskawa

Controller: DX200, YRC 1000

Software: MotoEyeLT

#### New Features compared with previous version

The software must be now licensed before use via the common license process:

The menu entry is placed in the Help menu:

The article number of the license is DNNP008.
