# BB1C503

Part Number

- Compact housing in 86 × 227 × 260 mm format
- Configurable uniVision software for evaluating images from machine vision cameras
- Control unit with installed uniVision Image software
- Wear and noise reduction thanks to passive, fanless cooling

The control unit is a CPU for evaluating data from image processing products. Its compact design ensures the necessary flexibility for easy, space-saving installation, for example in a control cabinet or on a wall. Quick initial start-up is made possible by the pre-installed software. Various standard interfaces are available for the output of results. An extensive range of optional accessories is also available including monitor, keyboard and switch.
