

Protective Caps for M8 × 1; plug (P1XD)

Z1XG001

Mechanical Data

Material	Plastic, PE
Packaging unit	10 Pieces

- For P1XD2xx sub-units in multi-unit operation
- Protection of the M8 plugs

The M8 protective cap is used to protect the plug when not in use. This applies if sensors of the P1XD2xx series are used in multi-unit operation and only the master sensor must be wired.
