Notice of discontinuation

Discontinued product:	HT77PA3
Recommended alternative product:	P1PH901 P1PH603
Discontinuation on:	31.03.2026

Key differences

Alternative product 1 is characterized by high insensitivity to interference and a larger detection range. Alternative product 2 is characterized by a higher switching frequency with a slightly reduced detection range. An off-delay can be parameterized via IO-Link for both alternative products.
The alternative products cannot be connected in series.

Below you will find a detailed product comparison:
