Reflector Holder
for muting arm

ZMZG302
Part Number

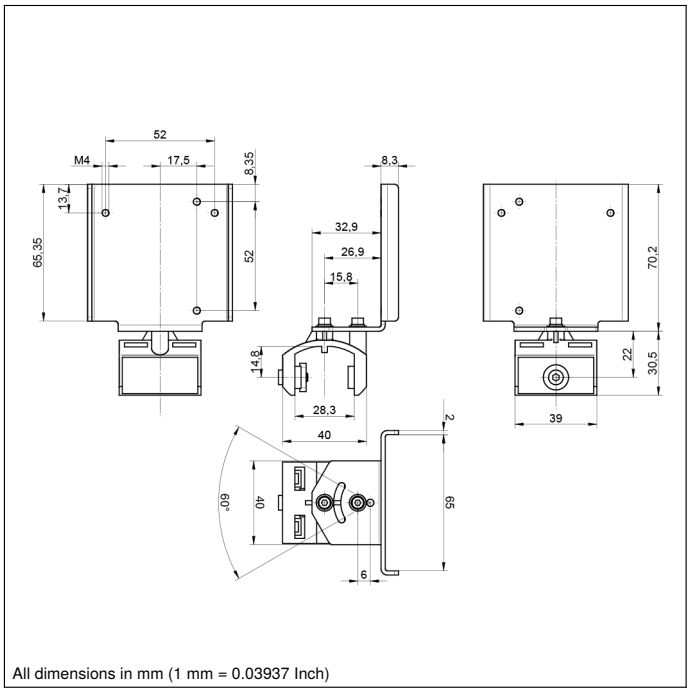

Technical Data

Mechanical Data	
Mounting type, device-side	Screws
Mounting type, system-side	Screwable with slot nut
Material	Aluminum, anodised
Material	Plastic, PA6
Use	With Z90R009
Mounting Number	112

- **For Z90R009 mounting reflector on the muting arm**

The mounting set for the muting application with the P1EL301 retro-reflex sensor with light band consists of ZMZG301 mounting bracket and ZMZG302reflector holder. It enables improved detection of porous conveyed materials. Both components are mounted on the muting arm. The sensor and reflector can be mounted both horizontally and vertically on the holders. In addition, both linear and cross muting are possible.

All dimensions in mm (1 mm = 0.03937 Inch)
