# **Through-Beam Sensor**

## P1KE001 Part Number

- Condition monitoring
- High light intensity with large switching reserve
- IO-Link 1.1
- Test input for high operational reliability

The through-beam sensor works with red light as well as a transmitter and a receiver. Thanks to their high light intensity, the sensor provides a high degree of operational reliability even with interferences like steam, fog or dust. The transmitter can be deactivated using test input in order to test the functionality of the through-beam sensor. The IO-Link interface can be used to configure the sensor (PNP/NPN, NC/NO, switching distance), as well as for reading out switching statuses and signal values.

#### **Technical Data**

| Optical Data                                 |                    |  |  |  |
|--|--------------------|--|--|--|
| Range  | 6000 mm            |  |  |  |
| Smallest Recognizable Part                   | see Table 1        |  |  |  |
| Switching Hysteresis                         | < 10 %             |  |  |  |
| Light Source                                 | Red Light          |  |  |  |
| Service Life (T = +25 °C)                    | 100000 h           |  |  |  |
| Max. Ambient Light                           | 10000 Lux          |  |  |  |
| Electrical Data                              |                    |  |  |  |
| Sensor Type                                  | Receiver           |  |  |  |
| Supply Voltage                               | 1030 V DC          |  |  |  |
| Supply Voltage with IO-Link                  | 1830 V DC          |  |  |  |
| Current Consumption (Ub = 24 V)              | < 20 mA            |  |  |  |
| Switching Frequency                          | 1000 Hz            |  |  |  |
| Switching Frequency (interference-free mode) | 500 Hz             |  |  |  |
| Response Time                                | 0,5 ms             |  |  |  |
| Response time (interference-free mode)       | 1 ms               |  |  |  |
| Temperature Drift                            | < 10 %             |  |  |  |
| Temperature Range                            | -4060 °C           |  |  |  |
| Switching Output Voltage Drop                | < 2 V              |  |  |  |
| Switching Output/Switching Current           | 100 mA             |  |  |  |
| Residual Current Switching Output            | < 50 µA            |  |  |  |
| Short Circuit and Overload Protection        | yes                |  |  |  |
| Reverse Polarity Protection                  | yes                |  |  |  |
| Lockable                                     | yes                |  |  |  |
| Interface                                    | IO-Link V1.1       |  |  |  |
| Protection Class                             | III                |  |  |  |
| Mechanical Data                              |                    |  |  |  |
