## Safety Light Curtain Finger Protection

## SEMG632

- Easy configuration via wiring
- Protection field over the entire length of the housing for an installation without protrusion
- Quick alignment through visible red light
- Slim design for easy integration

These safety light curtains complete all basic tasks with ease. The basic functions of safety operating mode, restart inhibit and contactor monitoring are integrated as standard and can be easily configured. Without protrusion, the safety field always extends to the end of the housing. This makes it easy to secure even in confined installation conditions.

| Optical Data                          |                 |
|---------------------------------------|-----------------|
| Range                                 | 0,256 m         |
| Housing Length (L)                    | 309 mm          |
| Safety Field Height (SFH)             | 310 mm          |
| Resolution                            | 14 mm           |
| Light Source                          | Red Light       |
| Max. Ambient Light                    | 10000 Lux       |
| Opening Angle                         | ± 2,5 °         |
| Electrical Data                       |                 |
| Sensor Type                           | Receiver        |
| Supply Voltage                        | 19,228,8 V DC   |
| Current Consumption (Ub = 24 V)       | 100 mA          |
| Response Time                         | 8,3 ms          |
| Temperature Range                     | -2555 °C        |
| Storage temperature                   | -2560 °C        |
| Number of safety outputs (OSSDs)      | 2               |
| Safety Output Voltage Drop            | < 2,3 V         |
| PNP Safety Output/Switching Current   | 300 mA          |
| Number of Signal Outputs              | 1               |
| Signal Output Voltage Drop            | < 2,5 V         |
| Signal Output/Switching Current       | 100 mA          |
| Short Circuit and Overload Protection | yes             |
| Reverse Polarity Protection           | yes             |
| Protection Class                      | III             |
| Mechanical Data                       |                 |
| Housing Material                      | Aluminum        |
| Disc Material                         | Polycarbonate   |
| Degree of Protection                  | IP65/IP67       |
| Connection                            | M12 × 1; 8-pin  |
| Cable Length                          | 300 mm          |
| Safety-relevant Data                  |                 |
| ESPE Type (EN 61496)                  | 4               |
