

Bar Light

red light, 1250 mm

LBAR913

Part Number

- Create patented curve effect to reduce LED hot spots
- Flexibility: expand the beam angle with an Angle Changer
- No external control required

wenglor bar lights from the LBA series are suitable for both small and large working distances. The direct lights can create lighting effects like bright field, low angle of incidence, dark field and dome lighting. Some line scanning applications are also possible. The LBA bar lights can be operated in continuous mode or in strobe mode. In combination with the ZBAG angle changers, the beam angle can be enlarged and designed flexibly.
