InoxSens

- **Easy sensor configuration using the IO-Link interface**
- **Innovative ASIC circuit technology**
- **IP68/IP69K**
- **Minimal mounting clearance thanks to wenglor weproTec**
- **Stainless steel housing**

The inductive sensors with full-metal housing are suitable for harsh ambient conditions and washdown areas thanks to the 316L stainless steel housing. The sensors with full-metal housing impress with their easy installation and reliable switching behavior. In addition to error-free operation of several sensors in a very small space, the new generation also provides the possibility of detecting system errors before it's too late thanks to ASIC, IO-Link interface and wenglor weproTec.
