wenglor Austria Celebrates Its 30th Anniversary

Linz/Tettngang – wenglor sensoric group is celebrating the 30th anniversary of its sales subsidiary in Austria. Since it was founded in 1993, wenglor Austria has established itself as a successful sales subsidiary of the wenglor sensoric group. In addition to the many trusting customer relationships, the long-standing service of the employees is particularly pleasing.

The 30th anniversary of the Austrian branch was celebrated together with customers during Smart Automation in Linz. Since the company was founded in 1993, building a relationship based on complete trust with customers has been at the heart of its operations. “In addition to the very satisfactory economic development, we are particularly proud of wenglor’s continuity in Austria. The long-standing service of many colleagues and trusting customer relationships built over decades have shaped the company significantly,” emphasizes Dieter Ensbrunner, General Manager of wenglor Austria. The 30th anniversary was also celebrated at the site in Austria. During an evening event, the company looked back on the past three decades.

About the wenglor sensoric group

The wenglor sensoric group develops innovative sensors, safety systems and machine vision products with intelligent interfaces and software for industry all over the world. Founded in 1983, wenglor is one of the world’s key high-tech providers for the automated industry. The solutions of the wenglor sensoric group enable the trends of Industry 4.0 as well as the Internet of Things, 3D technologies, robotics and artificial intelligence (AI). In doing so, they conserve resources and increase the quality and safety of the manufactured products. The second-generation owner-managed family business is represented worldwide with 28 subsidiaries in 53 countries. In addition to the company headquarters in Tettngang, the group of companies with over 1,100 employees also develops and produces its multi-patented products in Munich, Berlin, Sibiu (Romania), Perth (Scotland), La Chevrolière (France) and Belgrade (Serbia).
